Summary

Product leader with 9+ years at Microsoft Bing driving AI-powered search, video intelligence, and monetization at billion-user scale. Delivered \$40M+ incremental ARR through GenAI and multimodal product launches. Track record of defining cross-org strategy, shipping 0→1 products, and building evaluation frameworks adopted as organizational standards.

Core Strengths: GenAI Product Strategy | 0→1 Product Development | Cross-Org Leadership | Monetization | Quality Frameworks | Data-Driven Decision Making

Professional Experience

Microsoft | Senior Product Manager

June 2017 – Present | Beijing, China

Bing Multimedia — GenAI & Video Intelligence

- Launched Video AI Insights (0→1 GenAI product) — Owned end-to-end product strategy for structured video-insight capability; designed system prompts, scalable data pipelines, and quality eval framework. → Achieved ~98% grounded accuracy; improved Indirect WPSBS +4.8 pts and Video Triggered RSAT +11 pts
- Drove \$40M+ incremental ARR — Led monetization strategy across Image and Video surfaces through multimodal BMQ capabilities and first CPM-based Native Ads launch. → +\$21.5M ARR (FY26) | +\$18.5M ARR (FY25) | +\$9.6M from Native Ads
- Reduced experimentation cycle time by 75% — Drove engineering productivity through vibe-coded ads quality eval framework. → Cycle time: 3–4 weeks → ~7 days
- Built fraud detection system saving \$3M+ annually — Owned UHRS fraud detection for Microsoft's crowdsourcing quality initiatives. → Fraudulent earnings: 8% → 0.9% | Investigation time: 1+ day → <5 minutes

Bing News — Search & Social Experiences

- Owned Bing News and Social Answer P&L — Drove user research, competitive analysis, and UX improvements. → News Answer PCR +9% | Social Answer CCR +21.59% | US user base +15%
- Led Twitter data pipeline integration — Accountable for data quality, GDPR compliance, and security.

PubHub — Publisher Platform

- Scaled publisher onboarding across 7+ international markets — Built scalable news-site review models reducing editorial cost by 4X.

Tata Consultancy Services (TCS) | Technical Lead / Software Analyst

June 2010 – June 2014 | India

- Led team of 31 engineers — Developed service management for core banking solutions (B@NCS 24x7) for State Bank of India. → B2B revenue +25% | Customer Satisfaction: 100% | TCS Gems Award

Leadership & Influence

- Cross-Org Strategy: Defined GenAI video intelligence roadmap adopted across 3+ Bing teams; influenced engineering priorities and resource allocation

- Org-Wide Standards: Quality eval framework for ads and UHRS became the organizational standard for experimentation and fraud detection
- Executive Communication: Presented product strategy and investment cases to CVP-level leadership, securing budget for multimodal monetization
- Mentorship: Mentored junior PMs on experiment design, metric definition, and stakeholder communication

Skills

- AI/ML: LLMs, Prompt Engineering, GenAI Product Development, Multimodal AI, Grounded AI Evaluation
- Data & Analytics: A/B Experimentation, ClickHouse, Kusto, Superset/Titan, Offline & Online Metrics
- Product Craft: 0→1 Product Development, Monetization Strategy, Quality Frameworks, Roadmapping, PRDs
- Technical: SQL, Python (basic), API Design, GDPR/Compliance, Agile/Scrum

Education

Tsinghua University — Tsinghua-MIT Global MBA | 2015–2017 | Beijing

→ Tsinghua Freshman Scholarship (RMB 100K) | Beijing Government Scholarship | 2nd Place, Teck Mark Business Competition

Netaji Subhas Engineering College — B.Tech, Computer Science & Engineering | 2006–2010 | Kolkata, India

Certifications & Internships

- Microsoft — Summer Intern, Bing News Monetization Strategy (2016)
- Hewlett-Packard — Summer Intern, TCP/IP & IPv6 Networking (2009)
- TCS — Certification on Core Banking (2014)

Additional

- Built reusable Claude AI skills (Planning Doc Writer, Doc-to-Podcast, MD-to-Word) to automate PM workflows
- Native English & Bengali | Professional Mandarin Chinese
